The Mayor of Mostar, Mario Kordić on Monday strongly condemned the unacceptable behaviour of two police officers who physically assaulted a man during a curfew and demanded an urgent investigation and their immediate suspension.

"Regarding the CCTV video that appeared on social media last night, where we see two police officers hitting a man who violated the ban on movement during curfew hours, I strongly condemn the inappropriate behaviour and brutal behaviour of those police officers," it is said in a statement from Mayor Kordić.

Kordić, therefore, demanded an urgent investigation and sanctioning of the two police officers, who, he says, damaged the reputation of the police by their inappropriate behaviour.

The Mayor of Mostar also asked for their immediate suspension until the end of the investigation, as the incident caused a great deal of anxiety and condemnation of the citizens.
